Showreel

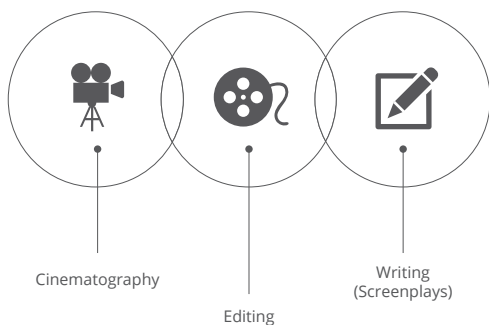

PERSONAL STATEMENT

As a highly driven filmmaker with over 9 years of professional and personal experience, I have developed a reputation as someone who strives for the highest quality product.

A Film Production graduate from University of West London with a First degree honours, I have undertaken many different freelance jobs, each time providing more than expected for the client in the final film. This has come from my creative upbringing and appreciation for other arts such as dance, music and visual art, thus giving me a unique outlook on any brief.

Self-taught in other pieces of software to develop my skillset, I am looking for more opportunities where I am able to bring my creative value to a project and further broaden my knowledge for the future.
