## PERSONAL STATEMENT

Creative, reliable and focussed video editor with a proven track record for creating professional quality video production since 2003.

## KEY ACHIEVEMENTS

- Award winning film maker with 15 years experience in producing over 600 productions.
- Produced high end video content for a large selection of international energy companies.
- Highly competent in producing, shooting and editing and fluent in all key Adobe softwares.
- Achieved 2 SQA awards for video editing.
- Strong understanding of brand awareness, digital video and marketing industries.
- Graduated with Diploma's in Film and Digital Marketing.
- Set up an online tv channel, producing, editing and filming video content throughout the UK.

## EXPERIENCE

**Campbell Media** - Owner: 2003 - Present. **Survitec Viscom** - Producer: 2014 - 2017

## PRODUCTION

- Experienced in working with a range of clients including a number of FTSE 100 companies, across multiple industries from initial kick off meetings to final delivery.
- Understanding individual brand guidelines and working closely with marketing teams / communications managers and contributing my creative vision.
- Highly competent and experienced in cinematography, directing, light and sound.
- Strong understanding of developments within the video industry for a more efficient work flow.
- I own my own production equipment including, 2 x 4K 35mm Blackmagic cameras, Canon 5D Mk iii, Go Pro's, Lighting and Sound Kits along with DJI Ronin Steadicams and DJI Inspire Drone that I would be happy to use in the role where required.

## POST PRODUCTION

- Competent in all key Adobe creative softwares including Premier, Photoshop and After Effects.
- Fluent in Final Cut Pro and Avid Media Composer Software and Davince Resolve.
- Experienced in bringing together projects across varied multiple softwares and also sharing videos through the relevant platforms, such as Vimeo, Youtube, Facebook and Instagram.
- Delivered over 60 productions within the last 12 months to a consistent high standard of quality.
- Have my own studio with iMac 4K, 16GB, 3Ghz / MacBook Pro suites and editing software, including Adobe CC, Final Cut, AVM and Davinci Resolve 15.

## PERSONAL STATEMENT

I've always been passionate about video from a very young age. I have studied and worked my way up in the industry since I was a teenager. I love all aspects of the filmmaking process but particularly love the post production and delivery process. I enjoy working as part of a team and consider myself to be a great communicator.

I am also a self starter, having spent many years managing myself under my own company. I am experienced in taking projects from start to finish, on time and under budget.

I'm married with a huge passion for the arts, script writing, reading and the outdoors.
