+905424528801

Hi, I am Ismet. I am a videographer based in Istanbul/Turkey. I have a lot of experience in videography also in editing. I have good skills in premiere, after effects and photoshop. I am currently making freelance fashion videos but I am looking for a full time editing job that I can do from my home. I have a fast internet connection and required equipment for video editing. Check out my behance portfolio for my last works. Hope we can work together as a team and make good content. I'm eager to receive your feedback.

Sponsorship required to work in the US
