Profile

Film and Media have both been life long passions. I have been creating films from a young age, documenting days out with my family when I was 9, bribing my younger sister to make youtube videos when I was 13 and choosing to study Film and Television for University. I have won two competitions, under 18's category for Film the House in 2011 with a short drama and the GAC Pindar Youth Photography Competition in 2018 with a sailing photo. I edit, film and produce my own content, creating great working relationships with local businesses and developing their online brand. As well as creating music videos and organising photoshoots for bands on a freelance basis.

Experience

Content Producer, Caboodle Food, Hampshire – 2014-Present

I have created the social media presences on instagram, making content such as short videos, shooting and editing all photos that are posted. During the creation of the new website I developed content to be uploaded such as PDF's, posters and nutritional videos working with Photoshop and After Effects to create the desired look. I have also worked on a book design and Wix website, taking headshots and planning future content.

Computer Supervisor and Student Ambassador, Solent University – 2018-2019

As a computer supervisor in IT department, I monitored the use of the equipment by students, opened up and locked down my area. I was also in communication with maintenance staff through radio. Alongside this I worked as a student ambassador, advertising the University during Open Days, talking to prospective students and their families. I worked at the registration, meeting the students, collecting their details and helping answer their questions. I set up the area, sorting gift bags and working in an eight person team.

Sailing Instructor, UKSA, IOW – 2018 summer season

I worked as a sailing instructor on the Isle of Wight, I organised and provided instruction in private dinghy sessions and with school groups for all ages, mostly focusing on 5yrs-20yrs age groups. I set up and organised week long training sessions, working in a team to build confidence and ability on the water. I maintained boats and the site for guests, volunteered to work as a kitchen porter as well as setting up and providing evening entertainment for the school children. I was also chosen to sail an RS 16 with Sarah Ayton (OBE Double Gold Olympic Champion) for Cowes week, where I represented UKSA and Land Rover.
