

I studied Cinematography in Polish Katowice Film School, Acting at Lee Strasberg Theatre Institute NY and Rhetoric and Literature Critique Studies at Polish Academy of Science.

I DOP (director of photography) all my work as well.

Shooting documentaries, music videos, commercials and short forms I worked for different markets.

I lived a number of years in London and New York.

These days I prefer to have the base here, on this edge of two worlds.

One side is emotion. The other one is pragmatism and hard work.

This location is Warsaw.

What do I do?

I am totally interested in human being.

On my path, I am exploring human nature and emotions.

With a strong visual background to it.

And I forgot to mention – I work in advertising :)

Hugs,

Marek

marek dawid bio
