**DOB:** 18/05/1990

**Driving Licence:** Full, clean **Union:** BECTU (public liability insurance)

## About Me

---

With five years professional experience in sound, music and audio post production. I have been fortunate enough to have worked on a wide variety of projects including short films, feature films, commercials, corporate video, and web content. As a result I am used to working with both large crews and small 'self shooting' teams with cameras ranging from Blackmagic to RED and Alexa, as well as audio recorders ranging from Zoom to Tascam and Sound Devices.

I am skilled in recording location dialogue, musical performance, sound effects, and voiceovers. I also work in dialogue editing and sound design. This can often involve me repairing and restoring problematic audio, or creating bespoke sound design. I am hardworking, creative and have the ability to work well with people at all levels. I enjoy a challenge, work well under pressure, time conscious and able to manage my time effectively. Please have a look around my website for equipment lists and show reel. Feel free to drop me a line for any further information you might need.

## Skills

---

- ◆ Logic Pro
- ◆ Pro Tools
- ◆ iZotopes RX and Ozone
- ◆ Audition
- ◆ Boom Operator
- ◆ Well experienced in various Sound mixer/recorders
