Personal Statement

During my time as a student studying Computing I have had experience working with programming, multimedia, game development (2D and 3D) and also animation, but in my second year I found my calling in video.

I have a passion for comedic film-making and a true interest in videography as well other aspects of post-production. To hone my skills I have been working on high quality comedic gaming videos on Youtube. In the past year I have produced some very high quality promotion films for a clothing line and a boxing academy, both of which were different yet enjoyable experiences, which has led to interest from sport company Pro Direct Soccer and other fitness academies.

I believe combining my passion for film-making, skills as a videographer and the social skills gained in my previous job will lead to a very interesting career, one which I am very excited to begin.

Employment

The Three Horseshoes

June 2011 - Current

Assistant / Bar Manager

I have worked as a part of a team to provide a good quality of service under pressure to deliver drinks and food in a busy restaurant.

As a friendly village pub, social skills with customers and bantering with staff has been key.

As Bar Manager I am expected to lead my team and am expected to perform all managerial duties as well as being directly responsible for what drinks are sold.
