Lightroom

## About Me

Over the last 12 years i've spent the majority of my time working in the creative industries. I've worked as a Program Director for radio stations, Media Advisor and A&R for various record labels.

6 years ago i started a new career path in Video and Creative Media Production. My experience within music production helped me learn new skills very quickly. I currently freelance for several production companies in Melbourne, including Commoner, York Studios and Fizz Farm. My Freelance work with these companies is ongoing and has seen me involved as a cameraman, colorist, and producer on large scale projects for the AFL, (Australian Rules Football), BUPA, Future Lab, seek.com.au, and La Trobe University alongside my own freelance projects. I've also worked as a 1st AC with some of Melbourne's best DOP's.

My personal freelance projects see me working with clients drafting creative ideas and concepts. Sometimes that involves me working as a director, cameraman, DOP, editor, and colorist. I also put a small team together to fulfil all roles required to complete the project. I specialize in creating unique social media content, a creative and engaging style with story themed branded content.

I am experienced in filming and colouring footage with many different brands of camera, Canon DSLR's, Canon C100, C300, Sony EX3, FS700, FS7, Panasonic GH3 / GH4, Black Magic Cameras.

I'm proficient on different editing set up's including FCPX and Adobe Premiere Pro. I grade with Davinci Resolve and can create FX and compositing in After Effects.

I'm educated; up to Higher National Diploma level (UK).

My website features some of my Video and Photographic work, please take a moment to visit.
